8. The Company shall be entitled to refuse bets from customers who fail to abide by these Terms of Service. The Company reserves the right to refuse to accept a bet of any type from any customer should they violate social standards of conduct and public order.
9. The Company reserves the right to refuse to accept a bet from any individual without giving a reason.

All bets shall be settled based on the data provided by the processing center.
10. Winnings shall be paid to the bettor within 30 (thirty) calendar days from the date of official publication of the results of the latest event on the bet slip.
11. A bet placed by the Customer shall be deemed won if all outcomes specified in such bet have been predicted correctly.
12. Betting terms (odds, handicaps, totals, maximum stake limits, etc.) may be subject to variation after a bet has been made, but this does not affect the terms at the time the bet was placed.

Before entering into an arrangement, the Customer shall check all changes in the current pre-match markets.

13. In the case of technical failures and unfinished streams, etc. bets on Esports Live will be refunded only if the event in question does not occur or bets on the event are not settled by the bookmaker.
14. If an employee makes an error while accepting a bet (obvious misprints on the list of events, inconsistency of odds between offered betting markets and the bet, etc), or a bet is accepted in violation of these Terms of Service, or if there are any other indications that the bet is wrong, the Company reserves the right to declare such bets void. Returns on such bets shall be paid at odds of 1.
15. In the event of obviously erroneous odds, such bet shall be settled based on the final result at the effective odds applicable to the certain market.
16. In the event of suspicions in the unsportsmanlike format of matches the company reserves the right to block bets on sport event before final conclusion of an international organization and declare bets as invalid if the fact of an unsportsmanlike game is determined. Payment of these bets is made with odds "1". The administration is not obliged to present evidence and conclusions to the customers.
17. The Company is committed to ensuring fair play in sport and is fully aware that the manipulation of sporting events (as well as other events) is linked to committing criminal acts (organized match fixing, corruption etc.) including organized criminal activities, as well as transnational and cross-border organized crime. Consequently, the Company fully complies with the goals and main objectives of the "Council of Europe Convention on the Manipulation of Sports Competitions" (CETS No.215), as well as relevant legislative requirements.
The Company is entitled to void bets if there is any suspicion or confirmation of foul play (match fixing), bets being placed using another Customer's account, the use of a Customer's account by a third party or any unusual betting activity (i.e. any differences in the type, size, volume and manner of bets placed).
The term "foul play" refers to the favorite intentionally losing a match or match fixing as defined by the rules of a competition for financial, competitive or other reasons, as well as any other violation of the rules of the relevant sport.
18. Should these Terms of Service be amended, customers shall be notified accordingly. Bets accepted after the specified date shall be subject to the amended Terms of Conditions. Earlier bets shall remain unchanged.
19. No connection failure while receiving confirmation of a bet shall entail the cancellation of such bet.
20. Placing a bet acts as proof that the Customer agrees to and accepts these Terms of Service.
21. Bets shall be settled and winnings shall be determined based only on the results declared by the Company. Any complaints about the results, date, and actual starting time of the event shall be considered together with official documents from the relevant sports federations.
22. No complaint in connection with or arising from transliteration (or translation) of a team name, player's surname, or sports venue will be considered by the Company. A tournament title is given for convenience only. No mistake in a tournament title shall result in a stake refund.
23. In no event shall the Company be held liable to the Customer for any indirect, collateral, or incidental losses or damages (including loss of profit), even though they may have been notified that such losses or damages are likely to occur.
24. The Company reserves the right to update these Terms of Service and add new provisions at any time. Such new terms or amendments shall take effect immediately after publication on the Website.
25. The Company customers are informed about the odds of winning and of the potential consequences and risks of losing.
Your withdrawals and deposits can be accessed through the "My Account" section.

2. Main rules for accepting bets

1. The bookmaker accepts bets based on the sportsbook – a list of events, along with their possible outcomes and odds of winning, offered by the betting company MelBet for the placement of bets.
2. The minimum stake for any event is 0,2€ (or the equivalent in a different currency).
3. The maximum stake is determined by the bookmaker for each event individually and depends on the sport and event.
4. The maximum winnings from one bet is 60 000€(or the equivalent in a different currency).
5. The bookmaker has the right to limit the maximum stake and the odds for individual events, and may also limit or increase the maximum stake and the odds for individual events for a specific customer without notice and without providing a reason.
6. The betting company may decide to limit repeated bets on the same outcome by one customer, including on combinations of outcomes which are effectively identical. In this case, the bookmaker has the right to refund the repeated bets (except the initial bet), provided the computer system has not blocked repeated bets from one customer.
7. A bet is considered to be accepted as soon as it has been confirmed by the company. All accepted bets appear in the “Bet History” menu. In some cases, there may be a delay before a bet appears in the “Bet History”. In case of potential disputes, a bet is considered valid from the moment it is registered in the company’s system. Even if a customer does not receive a message stating that their bet has been accepted, the bet is still considered to have been accepted if it appears in “Bet History”. Be aware that a notification about changes to the odds may not appear, significantly reducing the amount of time it takes to accept a bet. Claims regarding increased or decreased odds will not be accepted. The game organizer bears no responsibility for potential losses caused by changes to the odds.
8. A bet is considered won by the customer if all of the outcomes indicated in the bet were correctly predicted. This is not the case with system bets.
9. Bets are accepted until the start of the event; the date, start time of the event and comments on the Sportsbook are approximate. This is not the case with Live bets, which are bets placed during the match. This information and the corresponding markets are considered valid until the end of the match.
10. If, for any reason, a bettor tries to place a bet after the effective start of an event, the bet will not be registered and may not be placed. If, for any reason, the bet is placed, it may be canceled.
11. If a bet is considered invalid, the stake is refunded, and it is excluded from any accumulator or system bet it was part of.
12. In case of incorrectly calculated bets (e.g. due to erroneous results), these bets are recalculated.
13. Sporting events are considered postponed or canceled only based on information from official documents from the organizations running the sporting events, official sporting federation websites, and sports club websites; sports events shown in the sportsbook are corrected based on this information.
14. A bet may be canceled if the customer has deliberately deceived staff (employees of the bookmaker) by providing them with false information and demands regarding accepting bets, paying out winnings, event results, or any similar information or demands. This is also applicable to underage individuals: those who are under 18 years old and their parents.
15. A winning bet slip for a bet placed in a MelBet betting shop can be used to withdraw winnings for 30 days from the last sporting event on the bet slip being settled.
16. PRE-MATCH and LIVE bets may not be changed or deleted.
17. The betting company bears no responsibility for inaccuracies in the results of matches on which

- live bets are accepted. Bettors must also use other, independent sources of information.
18. A bet may be canceled if it is placed on a known outcome (if the event has already happened, but the result has not been updated on the system).
 19. Bets placed on regional championships are settled within 10 days (once the results have been published on the official websites of these championships). In the event that one team is absent from the match, all bets are settled with odds of 1.00 (refund). The team which did not take part forfeits the match.
 20. The “Simultaneous Finish” rule is an outcome where more than one participant of the event, tournament, championship, etc. is declared the winner. If two winners are announced, the total stake is divided by 2 when the bet is settled. If three or more winners are announced, all bets on this option are settled with odds of 1:1. This rule does not apply to “To be higher” bets.
 21. SP – Starting Price. These are the odds at the moment the race begins. They are officially calculated by averaging the odds offered by the organizers of the competition before the start of the race. If a race participant withdraws before the start or does not take part in the race (according to official report) and the new market SP has not been established, bets on the participant who withdrew are settled at odds of 1.00.

2.1. Bet Slip Sale

1. “Bet slip sale” service. A customer may sell a bet or part of it and immediately receive the funds in their account if they do not wish to wait for the bet to be settled. This service is available in “My Account” — “Bet History”, or in “Recent Bets”.
2. The player may choose to fully or partially sell their bet in the “Sell Bet Slip” dialog box. In this dialog box, they need to indicate how much of the cost of the bet slips to transfer to their account. The rest of this money remains on the bet slip and in play as though the player had initially staked this amount. The chosen amount is confirmed by pressing the “Sell” button.
3. The minimum and maximum sale amounts are determined on an individual basis for each bet slip. In some cases, only a full sale will be available. The number of partial sale operations available for each bet slip is only limited by the total stake.
4. Time spent making this decision affects the sale of the bet. If, after the form has been opened, the situation in the game changes, the sale may become more or less beneficial.
5. This service is available only for bet slips with single bets or accumulators.
6. Bet slip sale is forbidden if:
 - the bet slip has been settled;
 - one or several outcomes on the bet slip are blocked;
 - the bet slip contains outcomes for which selling is forbidden;
 - the bet slip has previously been sold;
 - the cost of the bet has changed, in which case the parameters for selling must be clarified; or
 - bet slip sale may also be forbidden in any other case at the company’s discretion.
7. The company bears no responsibility for the service being unavailable due to technical faults. The company reserves the right to stop offering this service at any time and for any events without providing a reason. A sale operation may be canceled if technical issues occur at any stage. In all these cases, bets are settled as normal, according to the outcome of the game.
8. The company does not guarantee that every bet placed on the website can be sold. Customers will only find out if a bet slip can be sold once the bet has been accepted.
9. The total payout proposed when selling a bet slip is not negotiable. The customer has the right to accept the conditions on offer or to refuse to sell their bet slip at the given price.

3. Types Of Bets

The betting company offers the following types of bets:

3.1. Single bet

A single bet is a bet on one individual outcome of an event. The winnings for a single bet are equal to the stake multiplied by the odds set for the chosen outcome.

Football. V.League 1. Division 2 Dong Nai II vs Lam Dong (05.06.2015 | 10:45). Handicap 1: -2, odds: 1.9, stake: 100 euro.

Winnings on this bet are $100 \times 1.9 = 190$ euro.

3.2. Accumulator bet

An accumulator is a bet on several unrelated outcomes of events. Winnings on accumulators are equal to the stake multiplied by the odds for all the outcomes in the accumulator. Losing one outcome in the accumulator means losing the whole accumulator.

3.3. System bet

A system bet is a bet on a full combination of accumulators of a set size with a number of events selected in advance.

The maximum number of options in a system bet is 184,756.

The maximum number of events in a system bet is 20.

Winnings on a system bet are equal to the total winnings on the accumulators in the system.

Table showing the number of options in a system bet:

3. Bets made using Advancebets have lost. Bets made with your own funds have lost. In this case, bets made as Advancebets will be nullified. Your own €10 that formed part of your Advancebet stake will be lost.

4. Restrictions on some event outcomes

1. Only one related outcome can be included in an accumulator or system bet. Related outcomes are two or more different bets which become linked by unexpected circumstances surrounding their outcomes and/or events. Bets with related outcomes will not necessarily contain the same result or relate to the same event.

Because the interdependence of outcomes is not always as clear as in the examples provided below, the bookmaker reserves the right to decide which particular outcomes are related.

2. If an accumulator or system bet containing two or more outcomes which are related to one another is accepted in error, the bookmaker reserves the right to declare the whole bet, or part of it, invalid. In this case, the winning odds for the related outcomes, except the one with the highest odds, are considered to be 1.00.
 - **Example 1:** If the score in the match is 1:1, it is a draw. When the match ends with this score there will be at least one draw in the current round, meaning that the event "match score 1:1 - yes" and the event "draws in the round (>) more than 0.5", like other logically (reasonably, accurately, and justifiably) similar event outcomes, are related outcomes.
 - **Example 2:** In the event of J.P. Montoya winning a Formula 1 race, he cannot be lower than any other participant and, as such, he will be higher than D. Coulthard. This means that the event "J. P. Montoya to win - yes" and "J. P. Montoya above D. Coulthard" and/or "D. Coulthard to win - no" and/or "Team McLaren (D.Coulthard and K. Raikkonen) to win - no", like other logically (reasonably, accurately, and justifiably) similar event outcomes, are related outcomes.
 - **Example 3:** If Chelsea wins the last match of the group stage (Chelsea vs Werder Bremen) and the teams in Group A (Chelsea, Barcelona, Werder Bremen, Levski) take the following places: 1st place - Chelsea (13 points), 2nd place - Barcelona (11 points), 3rd place - Werder Bremen (10 points), 4th place - Levski (0 points), then the outcome of the event "Chelsea-Werder 1X (Chelsea not to lose)" and the outcome "Group A. Bremen to qualify for the next round - No" and/or "Group A. Chelsea to take 1st or 2nd place - Yes", like other logically similar (reasonably, accurately, and justifiably) similar event outcomes, are related outcomes.
3. Only one of the related outcomes may be included in an accumulator. If two or more related outcomes are included in one accumulator (or system) bet, the events with the lowest odds are excluded from this accumulator (or system). Related outcomes (interdependent events) are when the result of one part of a bet affects the result of another part.
4. Bets on the events "Team to score a penalty Yes/No" will be considered to have lost if no penalties have been awarded by the end of regular game time.
5. Bets on the events "Goal type" and "Next goal" are considered to have lost if the goal number indicated on the bet slip is not scored.

6. Procedure for resolving disputes

1. If the outcome of a concluded event is later changed or voided for any reason (disqualification of a team or player, improper arbitration, etc.), bets are settled based on the initial (actual) result.
2. The bookmaker bears no responsibility for discrepancies between the indicated date and time and the actual start of an event. The start dates and times of events indicated in the Sportsbook are approximate. When settling bets, the actual start time of the event is accepted, or it is determined based on official documents from the organization running the competition (official websites of sporting clubs and federations, and other sources).
3. Claims regarding the result of an event are accepted within 10 calendar days of the moment the event ends according to official documents about the result from the organization running the event.
4. Bets placed after the actual end of an event (except Live bets) are settled at the bookmaker's discretion at odds of 1.00.
5. **PRE-MATCH bets.** If, for any reason, a match or competition is postponed by more than 48 hours (this time is approximate; the company has the right to keep bets valid to avoid disputes which could arise if a match is postponed by more than 48 hours from the planned official start time), all bets are canceled.
6. An event is deemed to have been postponed if the planned official start time of the event is changed.
7. **LIVE bets.** If, for any reason, a match or competition is interrupted or restarted within 5 hours of starting, all bets remain valid. If the interrupted match or competition is not restarted within 5 hours of starting, bets are settled at odds of 1.00, except when the result of the bets has already been established. This rule does not apply to events which, according to the rules of the competition, may last longer than 5 hours (see paragraph 11 "Terms and Conditions by sport").
8. If a match is not completed and is considered void (see paragraph 11 "Terms and Conditions by sport"), bets on all outcomes which have been objectively established by the time it is stopped (e.g. the outcome of the first half, the first goal scored and when etc.) are settled as normal. All other bets are settled at odds of 1.00.
9. If a participant withdraws before the start of an event, all bets on this participant are canceled.
10. If, for any reason (injury, refusal, etc.) a participant withdraws during a competition, all bets placed before the start of the final round or stage of the competition in which they were a participant are considered valid. All other bets are canceled.
11. Bets on tennis matches where one player withdraws are settled according to the Terms and Conditions stipulated in paragraph 11.23.
12. If a participant or team member (football, hockey, basketball, etc.) does not participate in a match, bets on them are settled at odds of 1.00, unless agreed otherwise.
13. If a player withdraws (is disqualified) from a tennis game before the start of the match, bets are settled at odds of 1.00, except bets on this player's results in the competition. If a tennis match is interrupted, postponed, or not completed on the same day, bets placed on it remain valid until the end of the tournament which the match is part of, unless the match is completed or a player withdraws.
14. If a pair of participants (teams, athletes) is indicated for an event (match, competition, or fight), and the participants making up the pair are subsequently changed, all bets on this event are canceled.
15. In team competitions, if one or several participants from any team are replaced for any reason, bets on the outcome of the match remain valid.
16. In doubles matches, if at least one member of a pair is replaced, bets are settled at odds of 1.00; if the individuals in the pair were not previously indicated, bets remain valid.

17. In competitions which include the concepts of "home" and "away" teams, if a match (event) is moved to a neutral venue (shown in the Sportsbook as "NV"), bets remain valid. If a match is moved to the opponent's venue, bets remain valid. If an international match is moved to a different country, bets on this event and related events (e.g. "To Qualify") are settled at odds of 1.00.
18. If more than one participant or team is declared the winner of a competition, the odds for bets on these participants are divided by the number of winners. For example, if two participants are declared the winners, the odds for bets on them are divided by two.
19. If a participant or team member (football, hockey, basketball, etc.) does not participate in a match, bets on them are settled at odds of 1.00, unless agreed otherwise.
20. In disputed situations without precedent, the final decision is made by the bookmaker. Settled bets may be recalculated if erroneous results are provided by the bookmaker.
21. In the event that information differs between various sources of information (dates, times, results, team names), the bookmaker withholds payouts of winnings until it can establish which information is accurate. If the result of a completed event displayed on an official website differs from the information broadcast via television, the company reserves the right to settle bets based on the information provided via the television broadcast. The final decision is made by the bookmaker.

In the event that official and independent sources provide different information regarding statistical data, the company has the right to settle bets based on statistical data from an independent source (<https://whoscored.com>) or from a video feed.
22. In the event that official and independent sources provide different information regarding statistical data, the company has the right to settle bets based on statistical data from an independent source or from a video feed.
23. Terms and Conditions by sport take precedence over the general Terms and Conditions.

7. Markets (outcomes)

1. "Team 1 To Win" is shown in the Sportsbook as "W1".
2. "Draw" is shown in the Sportsbook as "X".
3. "Team 2 to win" is shown in the Sportsbook as "W2".
4. Team 1 to win or draw" is shown in the Sportsbook as "1X" and means a win by Team 1 or a draw.
5. "Team 1 Or Team 2 To Win" is shown in the Sportsbook as "W1W2" and means a win by one team, i.e. not a draw.
6. "Team 2 To Win Or Draw" is shown in the Sportsbook as "X2" and means a win by Team 2 or a draw.
7. **Win in match** - One team has scored more goals (points, sets etc.) at the end of the match, including extra time (overtime) and post-match penalties if any are played.
8. **"To Qualify For The Next Stage"** - the bettor must predict which team will qualify for the next stage according to the final results, which include the results of return matches, extra time (overtime), and penalty shootouts, if any are played.
9. **Handicap** - An advantage or disadvantage assigned to one team (player, racer, etc.) in terms of goals, points, sets, seconds, etc. by the betting company for a specific bet.
The outcome of an event with a handicap is determined by adding the handicap to the actual result. If this outcome favors the chosen team (player, racer, etc.), the bet is settled as a win. If the opposite is true, the bet is settled as a loss. If the result with the handicap is a draw, bets on this outcome are settled at odds of 1.00.
10. **Handicap bet** - Betting with a handicap (three outcomes offered: W1, draw (X), W2).
Example: a match ends with a score of 2:1.
The bet "Handicap [0 : 1] W2" is settled as a loss because with the handicap, the score becomes 2:2.
The bet "Handicap [0 : 1] X" is settled as a win because with the handicap, the score becomes 2:2.
The bet "Handicap [1 : 0] W1" is settled as a win because with the handicap, the score becomes 3:1.
11. **Total bet** - A bet on the combined total number of goals, points, games, etc. scored, won, etc. by all the teams (players, etc.) involved in a match. To win, the bettor must predict how many more or fewer points will be scored than the total shown in the Sportsbook. The result is determined based on the game time for each individual sport as established by these Terms and Conditions unless otherwise specified in the Sportsbook.
Over/Under Total - If the final result matches the total specified, "Under" and "Over" bets are settled at odds of 1.00.
"Individual total" takes into account the number of goals, points, games, etc. scored, won, etc. by one team (player, etc.). When determining an individual total, only goals scored in the opponent's goal are counted.
12. **Three-way total** bets marked as (3Way): "Under", "Exactly" and "Over" are calculated precisely. For example:
"Total Under 123 (3Way)" — total strictly under 123
"Total Exactly 123 (3Way)" — total equal to 123
"Total Over 123 (3Way)" — total strictly over 123
If the final score is 123 points, only the "Total Exactly 123 (3Way)" market wins, while under and over bets with the (3Way) symbol are settled as losses, as would be the case with a regular total bet. Bets on individual three-way totals are calculated in the same way.
13. **Total Interval** - The total score between a pair of given parameters. For example, "Total Interval 0 To 1" - if the score is 0:0, 1:0, or 0:1, where the "Total" is equal to 0 or 1, this bet

wins. In all other cases it loses.

14. **Exact score** - The bettor must predict the exact score in the match at the end of regular time (without counting overtime, penalties, etc.)
15. **Half-time/Full-time** - Shown in the Sportsbook with "W" designating a win and "X" designating draw. The outcome of the first half (period) appears first and the outcome of the whole match appears second. For example, "W1W2" means that Team 1 wins the first half (W1) and Team 2 wins the match (W2).
For sports with four quarters (basketball, water polo, etc.), "Half-time/Full-time" bets cover the first half of each match (two quarters) and the final outcome of the match (regular time).
16. **Result + total goals** - A bet on a win by one team and the total number of goals scored in the match.
17. **Goal () Will Be Scored Up To 78:00 Minute** - Yes - The bettor must predict that one team will score by the 78th minute (inclusive). If no goals are scored, bets on this market are considered to have lost.
18. **First Goal From () To () Minute** - The bettor must predict that the first goal of the match will be scored within the given timeframe. If no goals are scored, bets on this market are considered to have lost.
19. **Last Goal From () To () Minute** - The bettor must predict that the last goal of the match will be scored within the given timeframe.
20. **No Last Goal** - A bet on this market wins if the game ends with a score of (0:0).
21. **Highest Scoring Half (Period, Quarter, Set, Game, Innings)** - The bettor must predict which half, period, quarter, etc. of the match will have the highest score or which will have the same score.
22. **Highest Scoring Quarter (Period)** - In the event that it is impossible to objectively establish which quarter had the highest score (two or more quarters ended with the same score), bets on the quarters in question are settled at odds of 1.00. Bets on the remaining quarters are settled as a loss (when calculating a four-quarter total, points scored during overtime do not count).
23. **Highest Scoring Half** - In the event that both halves end with the same score, bets on this market are settled at odds of 1.00 (when calculating the total for the second half, points scored in overtime are not counted).
24. **Top Player (Tournament)** - The bettor must predict which player will have the highest score at the end of a tournament. When comparing players' scores (number of goals scored, number of points won, etc.) at the end of the tournament, if both players have the same score, bets on the players in question are settled at odds of 1.00. Goals scored in post-match penalty shootouts do not count. The number of matches played by a player is not taken into consideration. If a player does not play in a single match, bets on the player in question are settled at odds of 1.00.
25. **To Be Higher At The End Of The Tournament** - The bettor must predict which team will finish higher in the standings at the end of a tournament.
If the scores are even, bets on this market are settled at odds of 1.00.
In the event that the team in question does not play in a single match in the tournament, bets are settled at odds of 1.00.
26. **Home/Away** - The bettor must predict whether home teams or away teams will score more goals or points in a given round with a handicap and a total. If, on the day of the match, one or more matches are canceled, postponed, not completed, or considered void, bets on the "Home/Away" market are settled at odds of 1.00.
27. **Total Goal Minutes** (sum of the minutes when goals were scored) - Calculated as the sum of every minute when a goal was scored in regular time. For example, if goals were scored in the 13th, 25th, and 47th minutes, the total will be equal to $13 + 25 + 47 = 85$.
28. **Points** (volleyball, table tennis, squash, badminton) - A point is a point won in a given set or game.

For example: "Volleyball. 1 To Win Point 19 In Set 1" – the score in set 1 at the time the bet is placed is 8:9, and later the changes to 8:10. Team 2 wins a rally, making the score 9:10. This means that team 1 scored the 19th point, so the bet wins.

29. **Highest/Lowest Score Quarter Total Under ()** – The bettor must predict that the number of points (goals) scored in the highest/lowest scoring quarter will be under the given total. If two or more quarters end with the same total, which is also the highest, this is not a basis for bets to be refunded. In this case, bets are settled based on this total.
30. **Race To () Points** - The bettor must predict which participant in a match will be the first to score the given number of points. For example:
"Race To 15 Points, Team 1 To Win" – If the score is 15:13, the bet wins; if the score is 12:16, the bet loses; if the score is 10:12, the bet loses.
"Race To 15 Points, No Winner" – If the score is 15:13, the bet loses; if the score is 12:16, the bet loses; if the score is 10:12, the bet wins.
If one of the participants withdraws from the match for any reason before they or their opponent have scored the specified number of points, bets on this market are settled at odds of 1.00.
31. **"Leader After Total Points Scored"**. The Customer should predict the situation between the teams after the specified number of points has been scored.
Example. Bet "*Team 1 To Win After 10 Points*".
Let's consider several options:
The score of the match is (6:4), 10 points have been scored, Team 1 leads, the bet wins.
The score of the match is (3:7), 10 points have been scored, Team 2 leads, the bet loses.
The score of the match is (5:5), 10 points have been scored, there is a tie, the bet loses.
32. **() To Score First Goal** - The bettor must predict which team will score the first goal. If no goals are scored in regular time, bets are considered to have lost. Own goals are counted as a goal for the team awarded the goal.
33. **Both Teams To Score** - The bettor must predict that both teams will score or that at least one team will not score.
34. **Draw In At Least One Half** - For example: "Draw In At Least One Half - No" – If the scores in the two halves are 1:0 and 0:0 respectively, the bet is settled as a loss. If the scores are 1:0 and 0:1, the bet is settled as a win.
35. **() To Kick Off The Match** - The bettor must predict which team will take the first kick-off at the center of the pitch.

41. **Last Booking** - The bettor must predict which team will be the last to have one of its players booked (shown a yellow card). Second bookings resulting in a player's automatic dismissal from the pitch are not counted. If two players, one from each team, are booked at the same time according to the official match report, bets are settled at odds of 1.00.
42. **Highest Scoring Team** - The bettor must predict which of the given teams will score more

goals or points.

43. **Individual Player Total** (basketball, volleyball) - The bettor must predict an individual player's total in a given category: points scored, rebounds, assists, etc. Bets on an individual player's total are accepted based on overtime or golden set periods. If a player does not take part in the match, bets on them are settled at odds of 1.00.
44. **Individual Player Total** (handball, futsal, field hockey) - The bettor must predict the total number of goals scored by an individual player. All bets on individual player totals are accepted based on regular time. If a player does not take part in the match, bets on them are settled at odds of 1.00.
45. **First To Happen** - Yellow Card/Goal - The bettor must predict which event will occur earlier in the match: a yellow card shown or a goal scored. If no yellow cards are shown and no goals are scored, bets on this market are settled at odds of 1.00.
46. **A Player To Score Two Goals (Hat-Trick, Poker)** - The bettor must predict whether or not a player will score exactly two goals, exactly three goals (hat-trick), or exactly four goals (poker) in a match. Own goals are not counted.
47. **To Come From Behind And Win** (regular time including added time) - A team is considered to have achieved a "comeback win" if they fall behind on the scoreboard during the match and then win. If the match ends in a draw, bets on "To Come From Behind And Win - Yes" are considered to have lost.
48. **First Match Goal - Header** - The bettor must predict whether the first goal scored in a match will be a headed goal. If no goals are scored in the match, or if the first goal in the match is an own goal (even if it is a header), bets on "First Match Goal - Header - No" are considered to have won.
49. **() To Score First And Win The Match** - The bettor must predict which team will score the first goal and also win the match. 52. **Run Of Play** (Lead - Win, Lead - Draw, Lead - Lose) - Bets are accepted based on regular time and added time. This type of bet is calculated based on which team is the first to take the lead, combined with the final result, regardless of how many times after this the advantage changes hands over the course of the game.
53. **To Win In Interval** - A bet on "W1 In The Interval From 10:00 To 14:59 Minute" is settled as a win if Team 1 score more goals than they concede within the given timeframe.
A bet on "X In The Interval From 10:00 To 14:59 Minute" is settled as a win if neither team scores within the given timeframe.
A bet on "W2 In The Interval From 10:00 To 14:59 Minute" is settled as a win if Team 2 score more goals than they concede within the given timeframe.
54. **() To Lead For () Minutes/Draw For () Minutes** - Bets are accepted for regular time.
For example:
During a hockey game, Team 1 scores a goal in the 16th minute, Team 2 scores in the 21st minute, and Team 1 scores again in the 36th minute. The total number of minutes during which the score was even is calculated as the first 15 mins + 15 mins (36 - 21) = 30 mins. The total time where Team 1 was in the lead was (21 - 16) + (60 - 36) = 5 + 24 = 29 mins.
Bets on "Draw For Under 19.5 Minutes" are settled as a loss.
Bets on "Team 1 To Be In The Lead For Over 13.5 Minutes" are settled as a win.
55. **Win After Score ()** - The bettor must predict how events will unfold after a given score has been reached. For example: A bet on "1X After Score 3:2" is settled as a win if the score does not change before the end of the match, e.g. after the score becomes 3:2, the score is 0:0 (draw)

for the remainder of the match; the bet is settled as a loss if the score becomes 3:3, i.e. after the score becomes 3:2, Team 2 scores another goal.

56. Bets on total playing time are accepted in minutes. In the event that the bettor predicts the playing time exactly, bets are settled at odds of 1.00. For example: "Kyrie Irving Total Minutes Over (39.5)" - if the player's total playing time is 39 mins and 30 seconds, this bet is settled as a win at odds of 1.00.
57. Win Or Draw - These bets cover only two outcomes. For example: "X or 2 (Home Win - Refund) - 2" - this bet predicts a win by Team 2. If the result of the match is a win by Team 2, the bet is settled as a win. If the match ends in a draw, the bet is settled as a loss. If Team 1 wins the match, the bet is refunded (according to the additional condition). Bets are accepted for regular match time.
58. **For bets on "Either Goalkeeper To Touch The Ball In The First () Minutes" and "Both Goalkeepers To Touch The Ball In The First () Minutes "**, any contact with the ball by a goalkeeper counts, even if the ball was out of play when the goalkeeper made contact, and regardless of whether it is shown in the television broadcast or not. In the event that the moment of contact with the ball is not shown in the broadcast (e.g. if a goal kick is not shown because a replay was on the screen), the time of contact is accepted as the moment the live broadcast resumes.
59. **Post-Match vs. Live** - These markets include one match played on a given day and a match that will be broadcast LIVE. The bettor must predict the outcome of a sporting event where the result for one team is already known.
If one match ends with a forfeit, is not completed, or is postponed, bets on markets marked "Post-Match vs. Live" are settled at odds of 1.00 (refund).
60. First Goal Scorer - Own goals (when a player knocks the ball into their own team's goal) are not counted. If the first goal scored is an own goal, bets on the first goal scorer are settled based on who scores the second goal in the match. If all the goals in a match are own goals, a bet on "No Goals" wins.
61. Last Goal Scorer - Own goals (when a player knocks the ball into their own team's goal) are not counted. If the last goal scored is an own goal, bets on the last goal scorer are settled based on who scored the preceding goal. If all the goals in a match are own goals, a bet on "No Goals" wins.
62. **Winner with Handicap bets** cover the entire competition season. The team that is the favorite will win the season with a handicap of 0. At the end of the season, all the teams' handicap points are added to their current score. The team with the most points will be determined the winner.

The bookmaker bears no responsibility for any inaccuracies in the information about the duration of a match. Information shown in the "Sports" and "Live" sections is approximate. Customers should find out about the rules from official sources.

3. If the venue of a match is changed, bets that had already been placed remain valid, provided that the home team is still designated as such.
4. **First Goalscorer.** Bets on players who do not take part in the match are considered void, as are bets on players who come onto the pitch after the first goal has been scored. Bets on players who are substituted or sent off before the first goal is scored are settled as losses. If the first goal is scored by a player who is not included in a market, all bets are settled as losses, except in cases where an "Any Other Player" selection is offered. If a match is interrupted before a goal has been scored, all First Goalscorer bets are considered void.

group stage, they are compared first according to their positions within the group and then by the number of points they have scored.

10. "Half-Time/Full-Time" bets. In the Sports section, “W” represents a win and “X” represents a draw. The outcome of the first half is shown first, followed by the outcome of the game after regular time. For example, W1W2 means that Team 1 won (W1) the first half, while Team 2 were the winners (W2) at the end of regular time.
"Half-Time/Full-Time" bets including overtime. The customer must predict which team will win the first half and which team will win the game with overtime included. Customers may not bet on a draw.
11. "Highest (Lowest) Scoring Quarter - Total". If two or more highest (lowest) scoring quarters have the same total, no stakes will be refunded. In this event bets will be settled based on the total (when the total of the fourth quarter is settled, no points scored in overtime will count).

If the highest scoring quarter is impossible to determine unconditionally (i.e. when two or more quarters have ended with the same result), bets on such quarters will be settled at odds of 1. Bets on other quarters will lose (when the total of the fourth quarter is settled, no points scored in overtime will count).

25. The "Total Drawn Quarters", "Handicap By Quarters", "Score By Quarters" and "Win By Quarters" markets are only settled on the result at the end of regular time.
26. The "1 Winning Margin In Points Interval From -1 to 9" bet wins if the difference in the number of points scored by Team 1 and Team 2 falls within the interval of -1 to 9 points. For example, the score is (85:90) so the winning margin of Team 1 is -5 and thus the bet loses.
27. Bets on the "2-Point Field Goal Percentage", "3-Point Field Goal Percentage" and "Free Throw Percentage" markets are settled based on the statistics from the official website whereby the percentage values are rounded to the nearest whole number.
28. Bets on the "Total Play Time" market should be specified in minutes. If the total has been named exactly, bets will be settled at odds of 1. In the left part, the range for the first team score is pointed out, in the right part - the range for the second team score. Example. "Score in the interval 3rd quarter. 22-33: 8-19 - Yes." The bet wins if the 3rd quarter ends with the score of 24-15.

Bets placed on any player who does not appear in the starting 11 or who appears as a substitute will be voided. Wickets taken in a super over do not count. Extra runs are included when settling bets, regardless of the reason for which they were awarded.

In matches with a limited number of overs, bets will be voided if less than 50% of the specified number of overs is played by either team due to external factors, such as inclement weather, except in cases where the bets had already been settled.

Best Batsman bets on Test matches only apply to the first innings of each team and will be voided if either team plays fewer than 50 overs, except in cases where the bets had already been settled.

Bets on the Best Batsman's Team in Test matches only apply to the first innings of each team, unless otherwise specified. If either team plays fewer than the specified number of overs in their innings (unless they declare or the innings comes to its natural conclusion), all bets will be voided, except those that had already been settled. In Twenty20 matches the match must be scheduled for the full 20 overs and there must be an official result unless settlement of bets is already determined.
21. First Innings Lead / Handicap. Betting on this market involves determining the difference in runs scored by the two teams in their first innings in Test matches.

The goalposts are similar to those used in football, only the posts extend higher above the crossbar.

Example: Team 1 scores 0-12 (0 is the number of goals, 12 is the number of points), and Team 2 has scored 2-5 (2 goals worth 3 points each and 5 individual points = 11 points altogether). The final score is 12:11 and Team 1 wins.

8.40. Weather

Weather at airports. We accept bets on weather indices recorded at airports around the world for transmitting weather data.

Bets are accepted on the air temperature and atmospheric pressure indices.

Bets are calculated on the basis of METAR weather reports. Bets are calculated if a change of weather is recorded in the METAR code with the exact date, time, airport, and weather conditions of the bet within an hour and a half of the time specified in the bet. If during that time the results cannot be established, the corresponding bets are settled with the odds equal to 1.

The figures used for the calculation of bets are obtained as follows:

- Air temperature data is provided in degrees Celsius and used for calculation without conversion.
- Atmospheric pressure data is provided in hectopascals. For the calculation of bets hectopascals

are converted to millimetres of mercury and rounded to one decimal place.

- Wind speed data is provided in knots or miles per hour. For the calculation of bets knots or miles per hour are converted to kilometres per hour and rounded to the one decimal place.
- All rounding is mathematical, i.e. when the first number dropped is 5, the last decimal place is rounded up.

The calculation of bets can be revised due to changes in new incoming data. Neither personal observations by customers nor data from any sources other than those indicated in the Terms and Conditions are taken into account.

8.59. 21

Card game 21

1. Card game 21 is a variation of the classic game. At the start of a game, the player and the dealer both receive two cards each, in turn, in the following order: player-dealer-player-dealer. If one of them scores 21 points with their first two cards, the game is over and the players compare points. Otherwise, the player has the right to take one additional card at a time until they decide to stop, they have 5 cards in their hand, the total value of their hand is equal to 21, or they score more than 21 points (bust). If a player goes bust, they automatically lose. In all other cases, the dealer takes their turn. The dealer must keep taking cards until their hand has a score of 17 points or more, they have 5 cards in their hand, or their hand has a higher score than the player. If the dealer goes bust, they lose. In all other cases, the points scored by the player and the dealer are compared. The winner is the participant who scores more points than their opponent. If both participants score the same number of points, the game ends in a draw. 21 is played with a 36-card deck. The cards rank as follows: 6, 7, 8, 9, 10, J, Q, K, A. The value of the cards according to their rank are as follows: 6, 7, 8, 9, 10, 2, 3, 4, 11. A "Golden Point" is a winning combination when the player or dealer holds two Aces in their hand. A golden point counts as 21).
2. In the case of errors committed by staff or of technical faults when accepting bets (obvious misprints in the sportsbook, different odds shown in different places, etc.) or if there is reason to suspect that a bet has been placed incorrectly, the company reserves the right to declare

such bets void. In the event of any software failures, the game may be interrupted, in which case all unsettled bets will be refunded.

Classic card game 21

1. At the start of a game, the player and the dealer each receive one card. The dealer's card is placed face down on the table, so that the value of the card cannot be seen. The player then takes one additional card at a time until they decide to stop, they have 5 cards in their hand, the total value of their hand is equal to 21, or they score more than 21 points (bust). If the player scores 21 points, they automatically win. If the player goes bust, they automatically lose. In all other cases, the dealer then takes their turn. The dealer turns over their first card and then takes additional cards. The dealer must keep taking cards until their hand has a score of 17 points or more, or they have 5 cards in their hand. In all other cases the number of points scored by the player and the dealer are compared. The winner is the participant who scores more points than their opponent. If both participants score the same number of points, the game ends in a draw. Classic 21 is played with a 36-card deck. The cards rank as follows: 6, 7, 8, 9, 10, J, Q, K, A. The value of the cards according to their rank are as follows: 6, 7, 8, 9, 10, 2, 3, 4, 11. There are two special combinations in the game that count as 21:

9. Examples

9.1. Calculating an Asian handicap single bet

When a customer places an Asian handicap bet, the bookmaker effectively accepts two bets. A bet with a handicap of (+1.25) in fact consists of two bets: one with a handicap of (+1) and one with a handicap of (+1.5). The stake on each of these bets is equal to half the stake of the handicap bet as a whole. The total winnings from the handicap bet will be equal to the winnings from the two bets making up the handicap bet. Depending on the result, the bettor could win with both bets; win with one win bet while the other is refunded; or lose with both.

Below is an example of calculating an Asian handicap bet:

event	handicap
-------	----------

Villarreal CF	+0.75
---------------	-------

Real Madrid	-0.75
-------------	-------

Let the total stake of the bet be €1.20 in this example.

If a customer places a **+0.75 handicap bet on Villarreal CF**, it will be divided into one bet with a handicap of (+1) and one with a handicap of (+0.5).

Below are some possible outcomes:

1. match score (0:1) – handicap (+0.5) - loss, handicap (+1) - refund.
2. match score (1:1) – handicap (+0.5) - win, handicap (+1) - win.
3. match score (0:2) – loss.

If a customer places a **-0.75 handicap bet on Real Madrid**, it will be divided into one bet with a handicap of (-0.5) and one with a handicap of (-1).

Below are some possible outcomes:

1. match score (0:1) – handicap (-0.5) - win, handicap (-1) - refund.
2. match score (1:1) – loss.
3. match score (0:2) – win.

9.2. Calculating an Asian handicap accumulator bet

If an accumulator or system bet includes an Asian handicap bet, the number of selections is doubled. For example, a customer places an accumulator bet consisting of two events with a total stake of €1.20 and a total of 3.25. The result of the event for both bets is 3:0. The bet is settled as though there were in fact 4 accumulators: >3,>3; >3,>3.5; >3.5,>3; >3.5,>3.5. The customer wins €0.30 from one accumulator, while all the others are settled as losses.

9.3. Calculating an Asian total bet

Total bets ending with .25 (but not .5) are calculated as two bets, each with a stake equal to half the total stake, with the same odds and the nearest “regular total” (a multiple of 0.5).

Example: a bet on Total Under 1.75 with a total stake of €100 at odds of 1.40.

For calculation purposes, the bet is split into two: Total Under (1.5) and Total Under (2). The stake is also split into two halves of €50 each.

Below are some possible outcomes:

1. match score (0:0) or (0:1) - both bets are correct, so the bet wins ($100 \times 1.40 = €140$)
2. match score (1:1), (0:2) - Total Under (1.5) - loss; Total Under (2) - refund €50
3. match score (1:2) - loss

Example: a bet on Total Over 1.75 with a total stake of €100 at odds of 1.40.

For calculation purposes, the bet is split into two: Total Over (1.5) and Total Over (2). The stake is also split into two halves of €50 each.

Below are some possible outcomes:

1. match score (0:0) or (0:1) - loss.
2. match score (1:1), (0:2) - Total Over (1.5) - win; Total Under (2) - refund €50 ($50 \times 1.40 + 50 = 70 + 50 = €120$)
3. match score (1:2) - win ($100 \times 1.40 = €140$)

10. Toto-15

10.1. General terms

A Toto-15 totalizator is a game in which the organizer accepts bets, in accordance with the Toto rules and the relevant legislation, from participants on the outcomes of events offered as part of a Toto draw, and then distributes the money received in the form of stakes (the “pool”) between the winning participants.

A “Toto participant” is an individual who places a bet on a Toto in accordance with the conditions defined in these rules. Participants must be at least 18 years of age.

An “event” here means a sports competition or match.

An “outcome” is one possible result of an event offered by the organizers of the Toto for participants to place bets on.

A “Toto bet slip” is a list of 15 events and their outcomes. It is filled in by a participant in order to place a bet. A bet on “Team 1 To Win” is designated as “W1”; a bet on “Team 2 To Win” is designated as “W2”; a bet on a “Draw” is designated as “X”. Participants can select several outcomes for each event. This increases the number of selections within the bet and, consequently, increases the minimum stake.

A Toto bet is a combination of event outcomes (one for each event in the next Toto draw) on which a participant wagers money, together with the total amount of money wagered.

A participant’s bet wins if they correctly predict the results of 9 or more events, and loses if they correctly predict fewer than 9 events.

If a bet loses, the participant loses their stake. If a bet wins, the participant’s stake is included in the total prize pool paid out to the winners.

The “pool” is the total amount of money received in the form of bets for the next Toto draw.

The “prize fund” is a part of the pool which is paid out to participants as winnings.

10.2. Distribution of the prize fund by category

15 outcomes correctly predicted - 10% of the prize fund

14 outcomes correctly predicted - 10% of the prize fund

13 outcomes correctly predicted - 10% of the prize fund

12 outcomes correctly predicted - 10% of the prize fund

11 outcomes correctly predicted - 10% of the prize fund

10 outcomes correctly predicted - 18% of the prize fund

9 outcomes correctly predicted - 32% of the prize fund

The prize fund is distributed between all winning bets proportionally, according to the stake amount of each bet the winning category it comes under.

The “jackpot” is an extra prize which is distributed between bets proportionally, according to their stake amounts.

The jackpot is made up of money from previous Toto draws in which one or several prize funds were not won, i.e. where the best bet correctly predicted fewer than 15 (14, 13, 12, 11, 10) events.

The jackpot increases with every draw and is not paid out until a participant correctly predicts the outcome of every event.

The betting company has the right to increase the size of a jackpot using its own funds.

10.3. General Provisions

1. Bets on all events in a Toto draw are accepted on regular time unless otherwise specified.
2. Bets are accepted up until the start of the next draw. The start of the draw is when the first event in the Toto begins (void matches are not included). Start dates and times of events shown in the sportsbook are approximate. An incorrect start time in the sportsbook does not constitute grounds for bets to be canceled.
3. An event in a Toto is deemed void if it is deemed void according to the MelBet Terms and Conditions.
4. If an event in a Toto is deemed void, all outcomes for this event are settled as wins.
5. Jackpot distribution in case of void events:
 - 1 void event – 35% of jackpot paid out
 - 2 void events – 20% of jackpot paid out
 - 3 void events – 10% of jackpot paid out
 - 4 void events – 5% of jackpot paid out
6. If 5 or more events in a draw are deemed void, the draw is deemed void and all bets are refunded. The administration reserves the right to use part of the jackpot to ensure that the winning odds are no lower than 1.05.
7. If 3 events in a draw are deemed void, the "9 outcomes correctly predicted" category is not paid out.
 - 40% of the prize fund is paid out to the "10 outcomes correctly predicted" category,
 - 20% is paid to the "11 outcomes correctly predicted" category,
 - 15% is paid to the "12 outcomes correctly predicted" category,
 - 10% is paid to both the "13-" and "14 outcomes correctly predicted" categories,
 - 5% is paid to the "15 outcomes correctly predicted" category.
8. If 4 events in a draw are deemed void, the "9-" and "10 outcomes correctly predicted" categories are not paid out. In this case,
 - 45% of the prize fund is paid out to the "11 outcomes correctly predicted" category,
 - 25% is paid to the "12 outcomes correctly predicted" category,
 - 15% is paid to the "13 outcomes correctly predicted" category,
 - 10% is paid to the "14 outcomes correctly predicted" category,
 - 5% is paid to the "15 outcomes correctly predicted" category.
9. If the company obtains reliable information before the start of an event about the cancellation of any event in a Toto, if any of the events are described incorrectly in the sportsbook (wrong names of participants, incorrectly labeled home/away team), or in the event of force majeure, including technical failures preventing any interested persons from placing bets on the draw, the company may (but is not obliged to) deem the Toto draw void, refund all bets and create a new Toto based on the canceled draw.

10.4. How to place a Toto bet

To place a bet, the bettor must select one or more outcomes for each of the 15 matches included in the bet slip.

The minimum and maximum stakes are determined by the company and may be changed depending on exchange rates.

Winnings are paid out at the exchange rate on the day the Toto bet was placed.

1. Customers can combine multiple bets in one bet slip by selecting 2 or 3 outcomes for one or more of the 15 events. In this case, the total number of bets and the minimum stake for this bet

slip is consequently doubled, tripled, etc. The total stake of the bet slip is distributed evenly between the bets in the bet slip.

2. If one bet slip contains several bets, winnings are awarded for winning bets within the bet slip proportionally according to the stake size for each bet.
3. Bets are accepted until the start of the first event in the Toto. Any bets placed after the start of the first event in the draw are deemed void.
4. The **"batch bet"** feature allows customers to place several random bets on a Toto draw. This can be done by selecting the stake amount for the bet slip and pressing the "Place batch bet" button. The selected number of bets will be placed automatically. Customers can check their bets by going to "Bet history" - "TOTO".

When bets are no longer being accepted, information on bets that have been placed and all statistics become available in "Results".

10.5. Jackpot Payment

Jackpots are paid out once the administration has verified the passport data and bank account details of the winner. The name of the account holder must match the name in the passport provided. The administration must transfer the winnings to the winner's bank account no later than 30 calendar days after the receipt, verification and registration of all the necessary documents for payment. Payment of the jackpot is made by the administration in accordance with the current legislation of the Russian Federation and regulatory documents in force at the time of payment.

10.6. Disputes

When resolving general queries and disputes relating to Toto totalizators, the company applies the relevant paragraphs of the MelBet betting rules, provided that these do not contravene the Toto rules.

10.7. Batch Bet

A batch bet is a collection of bet slips, which allows the bettor to enter several bet slips in the same draw

Batch bets are accepted up to 10 minutes before the start of a draw.

How to place batch bet

To correctly place a batch bet, all the bet slips must be made in the following format:

50;1-(1);2-(1);3-(1);4-(1);5-(1);6-(1);7-(1);8-(1);9-(1);10-(1);11-(X);12-(X);13-(1);14-(X);15-(1)

The line above represents the following information:

50 - the total stake of the bet slip

1, 2, 3, ... 15 - the number of each event in the Toto

(1,2,X) - the outcome selected by the bettor

Each bet slip should start on a new line in the following format:

Example:

50;1-(1);2-(1);3-(1);4-(1);5-(1);6-(1);7-(1);8-(1);9-(1);10-(1);11-(X);12-(X);13-(1);14-(X);15-(1),
60;1-(1);2-(1);3-(1);4-(1);5-(1);6-(1);7-(1);8-(1);9-(1);10-(1);11-(1);12-(X);13-(1);14-(X);15-(1),

Customers can prepare the bet slips in advance with any text editing software and then copy and paste into the batch bet field on the "TOTO 15" page, or enter the information directly into the field. The customer must then press the "Place batch bet" button. The information they have entered will then be verified. The customer will then be asked to confirm the bet. Once the bet has been confirmed, it will be entered in the draw.

Customers can check their bets by going to My Account - Bet history - TOTO.

Example:

A customer bets on the next draw, but is only confident of the results of 10 of the 15 events (W1, for example). In three of the events, they allow for 2 possible outcomes (1X), and for the remaining two they are not sure what the outcome will be, so they select (1X2).

If the customer creates one bet slip with all possible combinations of their predictions, the bet slip contains a total of 72 selections with a total stake of €360 (minimum stake: €5).

However, the cost of the stake can be significantly reduced by spreading these bets over a larger number of bet slips (batch bet). By doing so, the customer still has a chance of winning big.

To do this, they must make their selections in such a way that in any combination of their predictions, at least one of the bets would contain at least 14 correct predictions. In this case, the total number of bet slips required is 12 and the total stake is €60. The result is the following batch bet:

5;1-(1);2-(1);3-(1);4-(1);5-(1);6-(1);7-(1);8-(1);9-(1);10-(1);11-(X);12-(X);13-(1);14-(X);15-(1),

The batch bet feature is easy to use and is useful for customers who place Toto bets using their own systems.

Example of a Toto Correct Score batch bet:

5;1-(1:2);2-(1:1);3-(1:0);4-(1:3);5-(2:2);6-(1:3);7-(2:1);8-(0:1),

Example of a TOTO basketball batch bet:

5;1-(1o);2-(1o);3-(1o);4-(x);5-(x);6-(2o);7-(2o);8-(1o);9-(1u),
5;1-(1u);2-(1o);3-(1o);4-(x);5-(x);6-(2o);7-(2o);8-(1o);9-(1u).

11. TOTO Correct Score

For a Toto Correct Score, the bettor must place bets on the results of matches.

The Toto bet slip contains 8 events with options for the score of each one. The bettor must correctly predict the results of 2 or more matches for the bet to win.

To place a bet, the bettor must select one score for each event in the bet slip. Several bets can be placed in the same bet slip by selecting 2 or more scores for each event. Doing so increases the total number of selections and, consequently, the total stake is doubled, tripled, etc.

In order to for their bet to win, the bettor must correctly predict the results of 2 or more events. 95% of the pool (prize fund) is distributed between the winning bets.

If all the events go ahead (no void events) the prize fund is divided into 7* winning categories, with part of the pool added to the jackpot for the next draw**:

- Category 1 - 5% of pool, (8 scores correctly predicted)
- Category 2 - 5% of pool, (at least 7 scores correctly predicted)
- Category 3 - 7.5% of pool, (at least 6 scores correctly predicted)
- Category 4 - 10% of pool, (at least 5 scores correctly predicted)
- Category 5 - 12.5% of pool, (at least 4 scores correctly predicted)
- Category 6 - 20% of pool, (at least 3 scores correctly predicted)
- Category 7 - 35% of pool, (at least 2 scores correctly predicted)

* - If one or two events are deemed void, the pool is distributed according to the rules on "Jackpot distribution where 1 or more events are deemed void" (see below).

** - If there are no winning bets in the first winning category.

Distribution of the pool for winning categories with no winning bets.

If an event is deemed void, all bets on it are considered to have lost. The minimum number of correct predictions remains the same: at least 2 event outcomes must be correctly predicted.

An event is deemed void if the start time of the event is postponed to later than the time of the last event in the Toto Correct Score.

If there are no bets in one or more winning categories in a draw, 30% of the funds from those winning categories are added to the winning category in which the most scores were correctly predicted, and 70% are added to the jackpot for the next Toto draw. If there are no bets with correct predictions of more than 1 score, 95% of the pool is add to the jackpot.

The jackpot is distributed among the bets with correct predictions of 7 or 8 scores, according to their stake size. The larger the stake, the greater the winnings.

The jackpot is not paid out until a participant correctly predicts the scores of 7 or 8 events.

All bets with correct predictions for the scores of all 8 matches share out 95% of the jackpot. The remaining 5% of the jackpot is distributed among the bets with correct predictions of 7 scores.

Jackpot distribution where 1 or more events are deemed void:

1 void match - 25% of the jackpot is distributed (7 correct predictions)

2 void matches - The jackpot is not paid out and the funds are carried over to the next Toto draw.

Pool distribution in case of 1 void event:

7 scores - 5%, 6 scores - 5%, 5 scores - 7.5%,

4 scores - 10%, 3 scores - 12.5%, 2 scores - 55%.

Pool distribution in case of 2 void events:

6 scores – 5%, 5 scores – 5%, 4 scores – 7.5%,
3 scores – 10%, 2 scores – 67.5%.

If a draw includes 3 or more void events, the draw is deemed void and all bets are refunded.

1.2 A TOTO-Football totalizator is a game where customers place bets on the outcomes of 14 pre-selected football matches offered within a Toto draw.

1.3 Bets are accepted from individuals aged 18 and over. The customer is responsible for any breach of this paragraph.

1.4 Bets are accepted from individuals who have read and agree to these rules. By placing a bet, the customer confirms their agreement with these rules.

12.2. TOTO-Football bets

2.1 Each match can have 3 outcomes: a bet on "Team 1 To Win" is designated as "W1". A bet on "Team 2 To Win" is designated as "W2". A bet on a "Draw" is designated as "X".

2.2 A TOTO-Football bet is a combination of match outcomes (one for each match) on which a participant is wagering money, together with the total amount of money wagered.

2.3 The bettor can choose one to three possible outcomes for each match. Each individual bet is settled and paid out separately. When the bet is placed, the total number of bet options (selections) and the total stake is displayed. The stake for each selection is calculated by dividing the total stake by the number of selections.

2.4 Toto bets can be checked by going to TOTO - TOTO-Football - List of draws.

12.3. Calculating a TOTO-Football bet

3.1 Once all the matches in the Toto draw have been completed, the winning outcome for each match is displayed, in accordance with the rules for accepting bets on football. Bets on football matches are accepted on regular time (including added time), with the exception of markets such as "To Qualify" or "Winner", bets on which are accepted on the result of a competition between two teams. Added time in the first half is counted as the 45th minute. Added time in the second half is counted as the 90th minute. If a match is abandoned before 90 mins have been played or is postponed beyond 3 days, all bets on the match are canceled, with the exception of markets whose outcomes had been definitively determined.

3.2 A match is deemed void if it is interrupted/postponed/delayed, or if it starts while bets are still being accepted for the current Toto draw. All bets on a void match are considered to have won.

3.3 If a draw includes 4 or more void matches, the draw is deemed void and all bets are settled at odds of 1.00.

12.4. Distribution of the prize fund

4.1 The "pool" is the total amount of money received in the form of bets for the next TOTO-Football draw.

4.2 The prize fund is part of the pool (90%) which is paid out as winnings.

- f) Category 6 – 35% of prize fund (14, 13, 12, 11, 10 or 9 scores correctly predicted)

4.3 A jackpot made up from the prize funds of previous draws is added to the winning category with all 14 correct outcomes.

4.4 The jackpot is an additional prize distributed proportionally among bets where the outcomes of all 14 matches are correctly predicted, according to their stake (the larger the stake, the greater the winnings). It is made up of funds from previous Toto draws in which the prize funds for one or several winning categories were not won, i.e. where the best bet correctly predicted the results of fewer than 14 (13, 12, 11, 10, 9) matches. The jackpot increases with every draw and is not paid out until a participant correctly predicts the outcome of all 14 matches. The company has the right to increase the size of a jackpot using its own funds.

- b) Category 2 – 15% of prize fund (14 or 13 scores predicted correctly)

- d) Category 4 – 50% of prize fund (14, 13, 12 or 11 scores predicted correctly)

12.5. Calculation of winnings

5.1 The winnings for each selection are calculated by multiplying the winning odds for a particular category by the stake placed on that selection. The winning odds for a particular category are calculated by dividing the overall prize fund of that category by the total stake of all the bets with correct predictions (i.e. the larger the stake, the greater the winnings).

5.2 Winnings are credited within 1 hour of the end of the last match in the TOTO-Football draw, but no later than 12 hours after the end of the last match in the TOTO-Football draw in case of force majeure.

15. TOTO FIFA

Toto FIFA is a game in which the organizer accepts bets, in accordance with the Toto totalizator rules and the relevant legislation, from participants on the outcomes of events offered as part of the Toto, and then distributes the money received in the form of stakes (the “pool”) between the winning participants.

A Toto bet slip is a list of 15 events and their outcomes. It is filled in by a participant in order to place a bet. A bet on “Team 1 To Win” is designated as “W1”; a bet on “Team 2 To Win” is designated as “2”; a bet on a “Draw” is designated as “X”. Participants can select several outcomes for each event. This increases the number of selections within the bet and, consequently, increases the minimum stake.

A Toto bet is a combination of event outcomes (one for each event in the next toto) on which a participant wagers money, together with the total amount of money wagered.

A participant’s bet wins if they correctly predict the results of 9 or more events, and loses if they correctly predict fewer than 9 events.

If a bet loses, the participant loses their stake. If a bet wins, the participant’s stake is included in the total prize pool paid out to the winners.

Distribution of the prize fund by category

15 outcomes correctly predicted - 10% of the prize fund
14 outcomes correctly predicted - 10% of the prize fund
13 outcomes correctly predicted - 10% of the prize fund
12 outcomes correctly predicted - 10% of the prize fund
11 outcomes correctly predicted - 10% of the prize fund
10 outcomes correctly predicted - 18% of the prize fund
9 outcomes correctly predicted - 32% of the prize fund

The prize fund is distributed between all winning bets proportionally according to the stake amount of each bet and the winning category it comes under.

The jackpot is an extra prize which is distributed between bets proportionally according to their stake amounts.

The jackpot is made up of money from previous Toto draws in which one or several prize funds were not won, i.e. where the best bet correctly predicted fewer than 15 (14, 13, 12, 11, 10) events.

The jackpot increases with every draw and is not paid out until a participant correctly predicts the outcome of every event.

The betting company has the right to increase the size of a jackpot using its own funds.

Bets on all matches in the Toto draw are accepted on regular time unless otherwise specified. Bets are accepted up until the start of the next draw. The start of the draw is when the first event in the Toto begins (void matches are not included). A match in a Toto is deemed void in toto betting according to the company’s betting rules.

If any event in a Toto is deemed void, all bets on it are considered to have won.

Jackpot distribution in case of void events:

- 1 void event – 35% of the jackpot is paid out
- 2 void events – 25% of the jackpot is paid out
- 3 void events – 10% of the jackpot is paid out
- 4 void events – 5% of the jackpot is paid out

If 3 events in a draw are deemed void, the "9 outcomes correctly predicted" category is not paid out. In this case, 40% of the prize fund is paid out to the "10 outcomes correctly predicted" category, 20% is paid to the "11 outcomes correctly predicted" category, 15% is paid to the "12 outcomes correctly predicted" category, 10% is paid to both the "13-" and "14 outcomes correctly predicted" categories, and 5% is paid to the "15 outcomes correctly predicted" category.

If 4 events in a draw are deemed void, the "9- and "10 outcomes correctly predicted" categories are not paid out. In this case, 45% of the prize fund is paid out to the "11 outcomes correctly predicted" category, 25% is paid to the "12 outcomes correctly predicted" category, 15% is paid to the "13 outcomes correctly predicted" category, 10% is paid to the "14 outcomes correctly predicted" category, and 5% is paid to the "15 outcomes correctly predicted" category.

If the company obtains reliable information before the start of an event about the cancellation of any event in a Toto draw, if any of the events are described incorrectly in the sportsbook (wrong names of participants, incorrectly labeled home/away team), or in the event of force majeure, including technical failures preventing any interested persons from placing bets on the draw, the company may (but is not obliged to) deem the Toto draw void, refund all bets and create a new Toto based on the canceled draw.

1. The betting company accepts bets on Esports TOTO totalizators in accordance with these Terms and Conditions.
2. An Esports TOTO totalizator is a game where customers can place bets on the outcomes of 11 fixed esports events offered within the totalizator.
3. Bets are only accepted from individuals who have read and agreed to the company's Terms and Conditions. By placing bets, you confirm that you agree to the Terms and Conditions.

Esports TOTO BET

TOTO BET

1. To place a bet, you need to pick one result for each of the 11 events shown on the bet slip. You must predict not only who will win an event or a specific map, but also the total score at the end of the event. You can also bet on a draw in CS: GO if overtime is not mentioned in the rules of the tournament.
2. An Esports TOTO bet is the combination of a set of outcomes (one for each event) and the stake amount of the bet placed on this set of outcomes.
3. For each event in the totalizator, you can choose between one and four (five in rare cases) potential outcomes. Each bet is settled and paid out separately. When a bet is placed, the total number of bets (options) and the total stake are displayed. The size of the stake on each option is calculated by dividing the total value of the bet by the number of options.
4. The minimum stake for a totalizator is decided by the company.
5. You can view the full list of totalizators by going to TOTO - Esports TOTO - List of draws.

Esports TOTO SETTLEMENT

1. Once all the events in an Esports TOTO have concluded, we pay out the winnings for the correct outcomes for each event in the totalizator according to the Terms and Conditions for accepting esports bets.
2. An event in a totalizator is considered void if it is interrupted/postponed/delayed by more than 24 hours, or if it starts before the deadline for accepting bets for the totalizator. In a totalizator, all bets on all outcomes of a void event are considered to have won.
3. If 3 or more events in a totalizator are deemed void, that totalizator is deemed void, and all bets are settled at odds of 1.00.
4. The winnings for each bet are calculated by multiplying the winnings per 1 (one) monetary unit of the stake by the stake amount. The winnings per one monetary unit of the stake are calculated by dividing the prize pool for this category by the total value of the players' stakes on correctly predicted options (i.e. the larger the stake, the greater the winnings).
5. Winnings are credited within 1 hour of the end of the last event in the Esports TOTO totalizator, and no later than 12 hours after the end of the last event in the totalizator in the event of force majeure.

16.1. DISTRIBUTION OF THE PRIZE FUND AND JACKPOT

 - at least 9 outcomes predicted correctly - 10% of the prize fund
 - at least 8 outcomes predicted correctly - 15% of the prize fund
 - at least 7 outcomes predicted correctly - 20% of the prize fund

 - at least 6 outcomes predicted correctly - no payout
5. If the jackpot reaches 10 million, a rule comes into force to award the jackpot to the bet slip that correctly predicted 10 outcomes, provided that no one else guessed all 10 outcomes. In all other cases, bet slips with 10 correctly predicted outcomes share in 25% of the jackpot. This rule applies only if there are no canceled matches in the draw.

Distribution of the prize pool in cases where there is only one bet slip with 10 correctly predicted outcomes:

- Bet slip with 10 correct outcomes - 10% of the prize pool + 100% of the jackpot

JACKPOT

1. A cumulative JACKPOT, made up from previous totalizators, is designated for the prize category where the outcomes of all 11 events are correctly predicted.
2. The JACKPOT is an additional prize which is divided out between all bets where the outcomes of all 11 matches have been correctly predicted, in proportion to the size of the stakes (i.e. the larger the stake, the greater the winnings). It is made up from previous totalizator draws where one or more prize categories was not won (i.e. where the outcomes of fewer than 11 (10, 9, 8, 7, 6) events were correctly predicted by the best bet), in which case the prize fund for this category is rolled over into the cumulative JACKPOT for the next draw. The JACKPOT increases with each draw and is only won when at least one customer correctly predicts the outcomes of all 11 events. The organizer of the totalizator may increase the JACKPOT using their own funds.
3. Distribution of the JACKPOT when there are void events:

- 1 void event - 35% of the JACKPOT
- 2 void events - 20% of the JACKPOT

17. TOTO Free

1. TOTO bet slip – the customer must determine the results of the 12 events specified, submitting this as a free prediction once done. On the TOTO bet slip, results are represented as:
 - "1" for Home Win
 - "2" for Away Win
 - "X" for Draw
2. Only one outcome can be selected for each event.
3. Predictions are accepted until the first match included in the TOTO starts. Bet slips submitted after the first TOTO match has started will be deemed invalid.
4. A TOTO bet slip goes live when the first match included in the TOTO selection starts (actual time, not scheduled time). Matches deemed void are not taken into account. The start dates and times of the matches shown on the bet slip are for information purposes only. An incorrectly stated event time is not regarded as a reason for cancellation of the bet.
5. If an event is considered void, all the outcomes of this event in all bet slips are considered winning.
6. If one or more events are considered void:
 - If 4 or more events are considered void, a TOTO bet is regarded as canceled.
 - If 3 events are considered void, no points are awarded for 8 and 9 correctly predicted outcomes.
 - If 1 or 2 events are considered void, no points are awarded for 8 correctly predicted outcomes.
7. A match included in a TOTO bet slip is considered void if it is regarded as void according to the rules of MelBet Betting Company.
8. Winnings distribution:
 - 100 bonus points are awarded for 8 correctly predicted outcomes
 - 250 bonus points are awarded for 9 correctly predicted outcomes
 - 1,000 bonus points are awarded for 10 correctly predicted outcomes
 - 3,000 bonus points are awarded for 11 correctly predicted outcomes
 - 7,000 bonus points are awarded for 12 correctly predicted outcomes
9. How does it work?
 - A new round of TOTO is held every day.
 - Make your prediction for free.
 - Before a TOTO draw starts, confirm your free TOTO prediction by placing a bet on a sporting event. The minimum stake to confirm your prediction is 2.3 EUR, and the odds must be 2 or higher.
 - Only the first bet placed after your TOTO prediction has been made will count as confirmation of that prediction. Please note that bets placed with the use of promo codes and bonus points, as well as Advancebets, sold bets, refunds at odds of 1.00 and System bets will not count as confirmation of your TOTO prediction.
 - You can make only one prediction per day.
 - Wait for the daily TOTO draw.
10. A list of previous rounds can be found on the TOTO "List of draws" page.
11. Receive your bonus points in your Promo Code Store account within an hour after the last TOTO match has ended.

18. CRICKET TOTO

1. GENERAL PROVISIONS

1. The bookmaker, MelBet , accepts Cricket TOTO bets in accordance with these Terms and Conditions.
2. A Cricket TOTO draw is a type of game where users can place bets on the outcomes of 10 preselected esports matches offered as part of a TOTO draw.
3. Bets are only accepted from individuals aged 18 years or over. The bettor bears responsibility for any violations of this clause.
4. Bets are only accepted from individuals who have read and agreed to these Terms and Conditions. By placing a bet, the user confirms that they agree to these Terms and Conditions.

2. TOTO CRICKET BET

1. To place a bet, the bettor needs to select one result for each of the 10 events in the bet slip. The bettor must predict not only the winner of the match, but also the score at the end of the match.
2. A Cricket TOTO bet is a full set of outcomes - one for each event - as well as the amount of money wagered on these outcomes.
3. In each match of the draw, the bettor can select between one and five potential outcomes. Each bet is paid out and settled individually. When the bettor places a bet, the total number of bets (options) and the total stake will be displayed. The stake of each betting option is calculated by dividing the total stake of the bet by the number of options.
4. The minimum stake for a TOTO bet is 30 RUB.
5. All TOTO bets can be checked by going to TOTO > Cricket > List of draws.

3. SETTLING CRICKET TOTO BETS

1. Once all of the Cricket TOTO matches have ended, we will publish the winning outcomes for each of the events in the TOTO draw, based on the rules for accepting bets on cricket.
2. A match will be deemed canceled for the purposes of a draw if it is interrupted/postponed/delayed by more than 24 hours, or if it starts before the end of the betting period for the draw in question. For TOTO bets, all outcomes of canceled matches will be considered losses.
3. If a draw includes 3 or more canceled matches, the draw will be deemed canceled and all bets will be refunded at odds of 1.00.

4. DISTRIBUTION OF THE PRIZE FUND

1. Betting pool - a monetary sum, received in the form of bets placed by participants of the current Cricket TOTO draw.
2. Prize money - a part of the pool (90%), used to pay out winnings.
3. The prize pool is distributed in categories:
 - a) category 1 - 5% of the prize pool - includes bets with correct predictions for 10 match results.
 - b) category 2 - 5% of the prize pool - includes bets with correct predictions for 10 or 9 match results.
 - c) category 3 - 10% of the prize pool - includes bets with correct predictions for 10, 9 or 8 match results.
 - d) category 4 - 10% of the prize pool - includes bets with correct predictions for 10, 9, 8 or 7 match results.
 - e) category 5 - 25% of the prize pool - includes bets with correct predictions for 10,

- 9, 8, 7 or 6 match results.
 - f) category 6 - 45% of the prize pool - includes bets with correct predictions for 10, 9, 8, 7 or 5 match results.
 - The category for all 10 correct outcomes also includes a cumulative JACKPOT formed from previous draws.
4. A JACKPOT is an additional prize that is distributed between bets where the results of 10 matches were guessed correctly, in proportion to the stake of these bets (i.e. the bigger the stake, the more winnings the participant receives). It is formed from previous TOTO draws in which no prizes were awarded for one or more winning categories, i.e. the best bet had fewer than 10 correct predictions (9, 8, 7, 6, 5). In this case, the prize pool for this category is carried over and added to the JACKPOT of the next draw. The JACKPOT is not drawn and does not increase from draw to draw until a participant correctly predicts the results of all 10 matches. The organizer of the TOTO draw has the right to increase the JACKPOT using their own funds.
5. JACKPOT distribution in the event of canceled matches:
- 1 canceled match - 35% of the JACKPOT awarded
 - 2 canceled matches - 20% of the JACKPOT awarded
6. In the event that there is 1 canceled match, the prize fund will be distributed in categories in accordance with clause 4.2.
7. In the event that there are 2 canceled matches, the prize fund will be distributed in categories as follows:
- a) category 1 - 5% of the prize pool - includes bets with correct predictions for 10 match results.
 - b) category 2 - 10% of the prize pool - includes bets with correct predictions for 10 or 9 match results.
 - c) category 3 - 15% of the prize pool - includes bets with correct predictions for 10, 9 or 8 match results.
 - c) category 4 - 25% of the prize pool - includes bets with correct predictions for 10, 9, 8 or 7 match results.
 - d) category 5 - 45% of the prize pool - includes bets with correct predictions for 10, 9, 8, 7 or 6 match results.
 - e) category 6 - unpaid

5. CALCULATION OF WINNINGS

1. The winnings for each bet are calculated by multiplying the winning odds for 1 RUB by the stake. The winning odds for 1 RUB are calculated by dividing the prize fund for the relevant category by the total stake of bets on correct predictions (i.e. the bigger the stake, the more winnings the participant receives).
2. Winnings from bets are credited within 1 hour of the end of the last match in the Cricket TOTO draw, and no later than 12 hours after the end of the last match in the draw in the event of force-majeure circumstances

21. FAIRNESS & RNG TESTING METHODS

Online gambling should be fair. And while this requires players to behave honestly and without malicious intent, it is the responsibility of casinos to take all necessary measures to ensure that players can enjoy the game in fair and safe conditions.

DEFINITION OF FAIR CASINOS

1. A “fair casino” is an online casino that:
 - pays out all legitimate winnings;
 - does not include unfair terms in its terms and conditions;
 - does not resort to deceptive practices to cheat players;
 - prevents access from restricted countries (does not allow players from certain countries to create an account or play) and only grants bonuses to those players who can use them.
2. Even casinos with fair rules and a good approach to gambling can engage in dubious practices for players. In some cases, players may ignore certain rules and inadvertently break them, even though the rules are fair in opinion. That is why casinos should ensure compliance with all rules using technological means to prevent players from unintentionally getting into trouble.

DEFINITION OF FAIR AND SAFE CASINOS

1. Fair and safe casinos like melbet.com.zm operated by Caecus N.V. are those that meet all the criteria of “fair and safe casinos” and have also implemented measures that prevent players from accidentally breaking the rules or doing something that harms their own interests.
2. Therefore, “fair and safe casinos” should prevent players from violating the general terms and conditions, bonus terms and conditions, or any other rules that could jeopardize the money they have in their account. In particular, “fair and safe” casinos should:
 - ensure compliance with maximum bet amount limitations, restricted games, and other bonus conditions;
 - warn players that they are about to do something that could be detrimental to them (such as accepting a bonus that could void the winnings of the previous bonus);
 - check for multiple accounts when creating an account (we suggest checking the database for a combination of the new player’s name and date of birth and displaying a warning if any results are found; we will discuss this in more detail below).
3. Fair casinos like melbet.com.zm operated by Caecus N.V. works only with trusted software providers in the field of gambling.
4. Except for LIVE casino games, to ensure the integrity of our casino games, a Random Number Generator (RNG) is always used to determine the random outcome of such games.
5. This is a standard industry system that ensures consistently random results which have also been extensively tested by running and analyzing thousands of game rounds. The randomness of the RNG provides a credible and fair gaming environment.
6. We cooperate with gambling regulatory authorities and online gambling licensing organizations with the intent of ensuring our compliance with the legislation of relevant jurisdictions.

1. Responsible Gambling and Self Exclusion

Responsible Gambling

Gambling, for the majority of our Customers, means entertainment, fun and excitement. But we also know that for some of our Customers gambling has negative side effects. Pathological gambling has long been recognized by medical science as a serious illness.

Since our first day we have thought about this problem and try our best to help. Under “Responsible Gambling” we understand multiple steps of measures, with which a gambling provider can help to lower the possibility of negative side effects appearing. -In case they already appear we also try to take active steps against them.

The most important instrument against negative side effects from gambling is knowledge and education about the risks of gambling to support our Customers self-control in order to make sure they do not suffer from negative side effects.

The Company shall not be liable for any losses or delays resulting from such action where it is necessary for compliance with its regulatory obligations or the protection of the platform.

6. Fraud and Internal Review

Where fraudulent activity, misrepresentation, or the use of falsified documents is suspected, the Company may:
